Foreword

THE HOMES illustrated in this book are from actual photographs, which combine beauty, convenience and economy and bring to you the very latest in style and design of practical up-to-the-minute architecture. Your home is the reflection of your personality and the expression of your ideas, and with this thought in mind, it is hoped that the suggestions carried out in the interior and exterior planning of the homes shown herein will assist you in selecting a design conforming to your individual taste and requirements.

The proper selection of shrubbery adds wonderfully to the artistic appearance of any home, and in these illustrations we have endeavored to show how the placing of flowers, shrubbery, well located trees, a vine on a trellis—little touches that the home owner can do himself to make a charming spot, though the house itself be small, even plain.

In the preparation of this book, great care has been exercised in selecting these types of homes that are in great demand and that can be constructed simply and economically by any competent carpenter or contractor. The interiors have been carefully and thoughtfully planned and excellent results have been accomplished in the number and size of rooms provided, considering the outside dimensions.

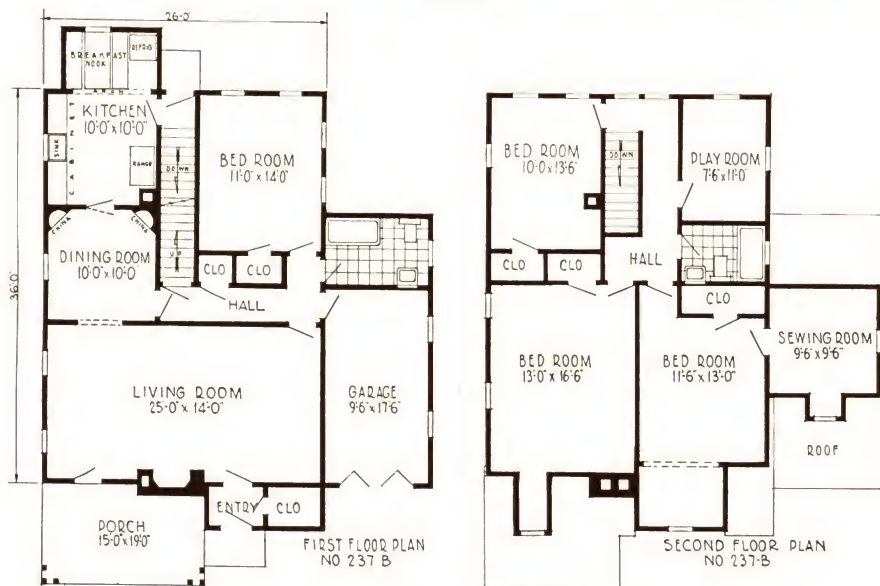

Alternative Floor Plans

To further assist you in the selection of a plan best suited to your requirements, both as to size and room arrangement, we have in most instances shown two or more floor plans for each house design illustrated. After selecting a suitable design, as to the exterior appearance, you should then decide definitely on the number of rooms required. To determine proper size of the various rooms, it would be advisable to measure the rooms in your present home and then compare with measurements shown on plan. If you desire to increase the size of a certain room by diminishing the size of another, it is a very simple matter for the carpenter or contractor to change location of partition walls. This same suggestion applies to location of windows and doors.

In planning the interiors, we have endeavored to make the arrangement of rooms thoroughly practical and convenient from every standpoint and to utilize every inch of floor space. The homes are all planned in a most economical way so as to eliminate the use of any material not absolutely required and for this reason it is advisable to conform to the outside dimensions of plans shown.

237B

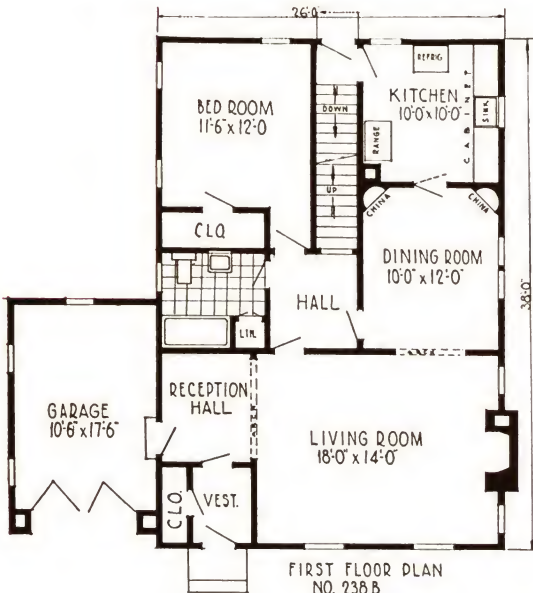

Plan No. 237B—Size 26 by 36 feet

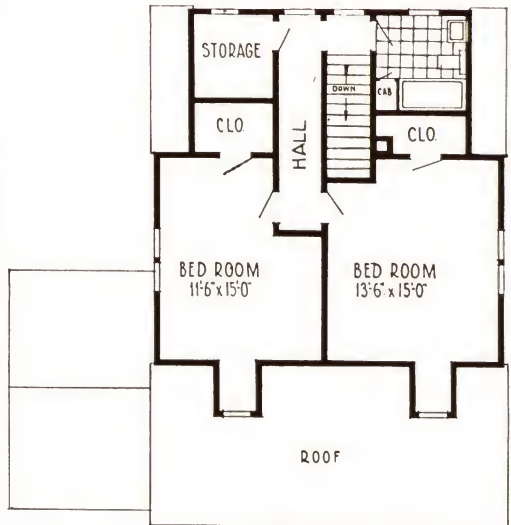

The projected vestibule and porch and the dormer on either side of gable, as well as attached garage at side, produce an exterior of individuality and artistic beauty. Entrance is made through vestibule into spacious living room having fireplace, French door to porch and arched entrance to dining room. The center hall connects all rooms, including garage, and has stairway to second floor where three additional bedrooms, playroom, sewing room and bathroom are provided. The kitchen has a cabinet with two-tray sink in center, chimney for range, breakfast nook, refrigerator space and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with ample space for recreation room, laundry, furnace, fruit and storage rooms. Hot water heat is recommended. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

238B

FIRST FLOOR PLAN
NO. 238B

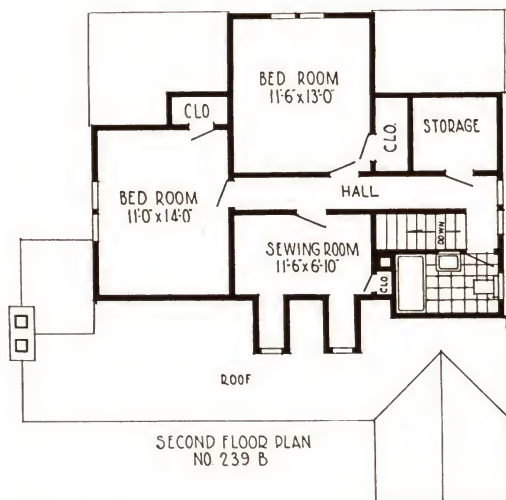

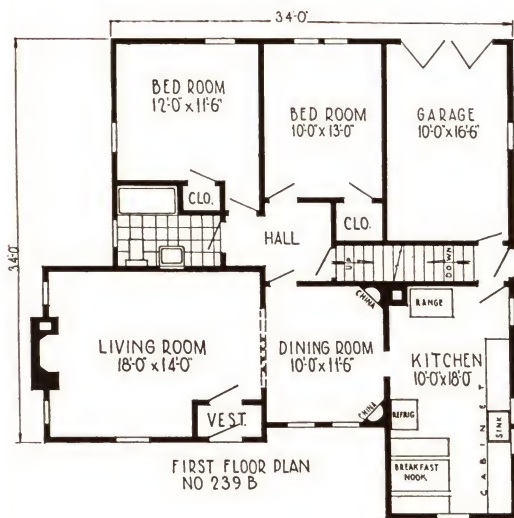

SECOND FLOOR PLAN
NO. 238B

Plan No. 238B—Size 26 by 38 feet

Always a popular type design—the attached garage at side and artistic dormers enhance the exterior of this attractive semi-bungalow. Entrance is made through vestibule to hall which has a door leading to garage and an arch connecting living room, which is well-lighted and has a fireplace and arched entrance to dining room. The center hall connects all rooms and has a stairway leading to second floor where two additional bedrooms and bathroom are provided. The kitchen has a cabinet with two-tray sink in center, chimney for range and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with ample space for recreation room, laundry and fuel room. Hot water or warm air heating plant may be used. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

239B

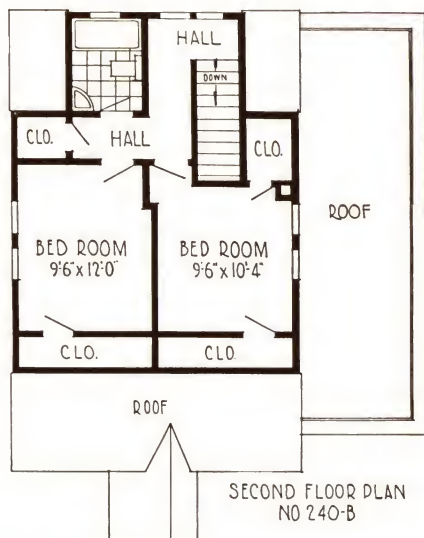

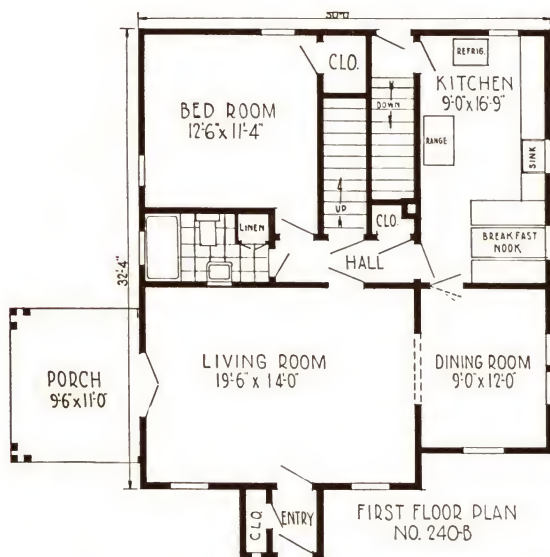

Plan No. 239B—Size 34 by 34 feet

This extremely attractive bungalow borrows from the Cape Cod style and is of a distinctive type. The large, well-lighted living room with fireplace, arched entrance to dining room which has recessed corner cabinets with open shelves for ornamental pieces produces a luxurious interior. The small center hall connects both bedrooms with bathroom and has stairway leading to second floor where two additional bedrooms, sewing room and bathroom are provided. The kitchen is very roomy and has breakfast nook, cabinet with two-tray sink in center, chimney for range and door to rear entry leading to garage, basement, and outdoors. A brick water table extends around entire house with siding above. Basement under entire house with ample space for recreation room, laundry and fuel room. Hot water or warm air may be used for heating. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

240B

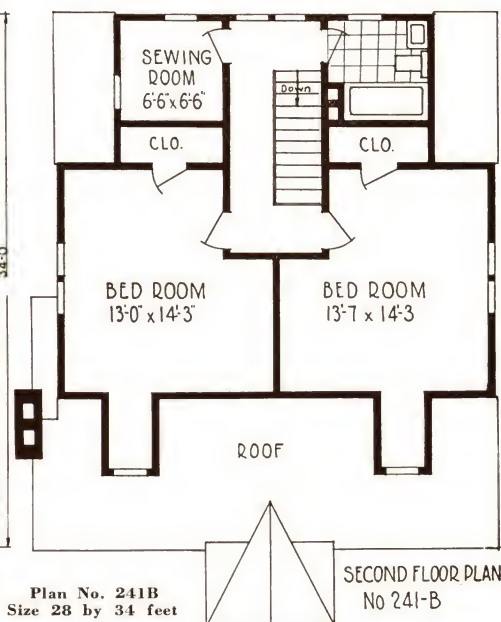

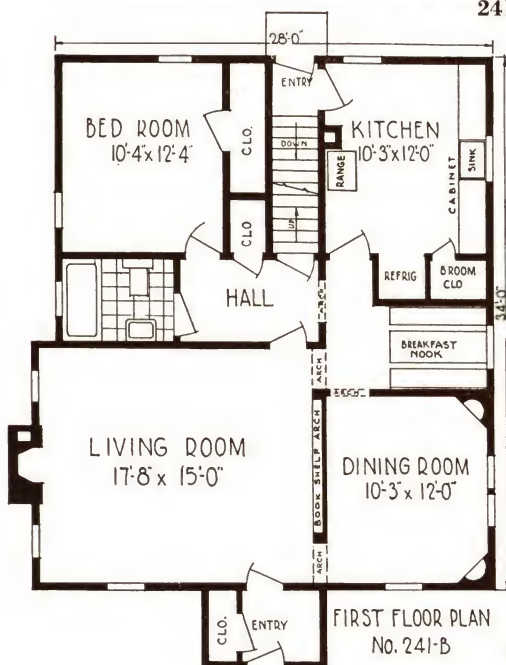

Plan No. 240B—Size 30 by 32 feet 4 inches

This Cape Cod style bungalow with projected vestibule, and dining room, kitchen on side with porch on other side is exceptionally attractive. Entrance is made through vestibule into large living room with French doors leading to porch and arched entrance to dining room. The center hall connects all first-floor rooms and has stairway to second floor where two additional bedrooms and bathroom are provided. A brick water table extends around entire house with siding above. The kitchen is very roomy and has a breakfast nook, chimney for range and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with space for recreation room, laundry and fuel rooms. A hot water or warm air heating plant may be installed. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

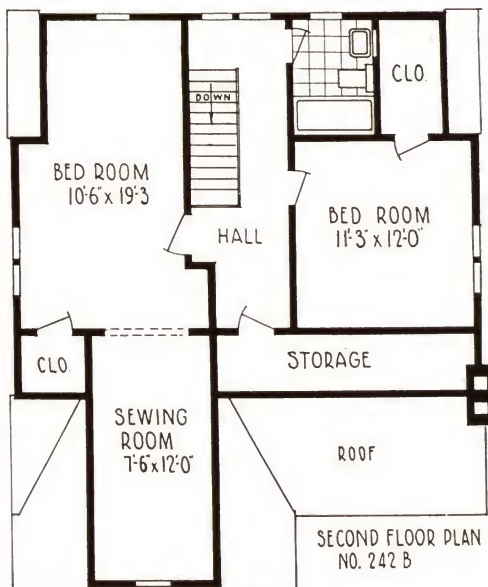

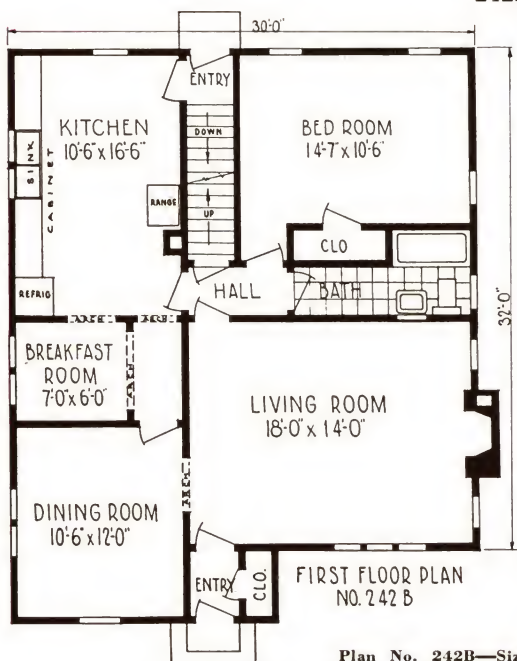

241B

The projected vestibule and neat-appearing dormers combine to produce the cozy appearance of this popular type bungalow. The vestibule has a closet and leads to well-appointed living room, which has a fireplace and triple arch. The center arch is recessed and has open shelves for books and ornamental pieces. The dining room has corner arches with open shelves. The center hall connects all first-floor rooms and has stairway to second floor where two additional bedrooms, sewing room, and bathroom are provided. A 12-inch brick water table extends around entire house with siding above. The kitchen is provided with cabinet with two-tray sink in center, chimney for range, broom closet, refrigerator space, breakfast nook adjoining, and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with space for recreation room, laundry and furnace room. Ceiling height, first floor, 8 feet 3-inches; second floor, 7 feet 6 inches.

242B

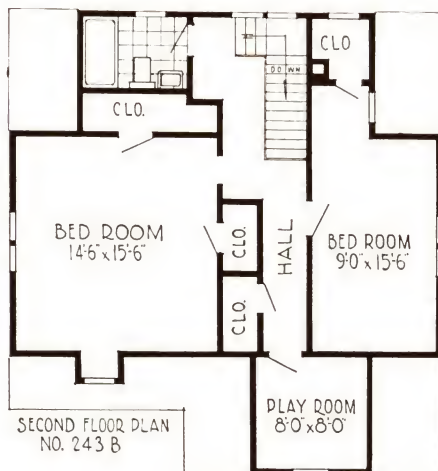

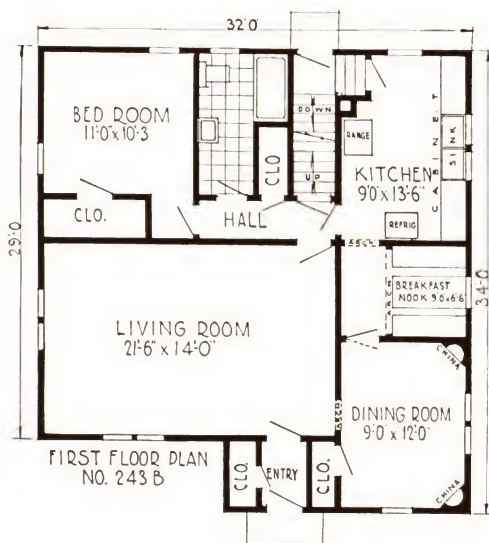

Plan No. 242B—Size 30 by 32 feet

This shingled bungalow has a very luxurious and compact interior arrangement. The vestibule, with closet, leads to large well-lighted living room which has a fireplace and arched entry to dining room. The small center hall connects all rooms and has stairway to second floor where two additional bedrooms, sewing room, bathroom and ample closet space is provided. The kitchen has a cabinet with two-tray sink in center and refrigerator space at end, chimney for range, breakfast room adjoining and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with space for recreation room, laundry and furnace rooms. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

243B

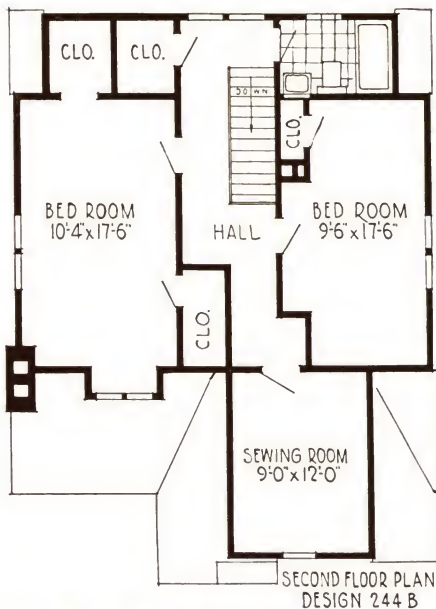

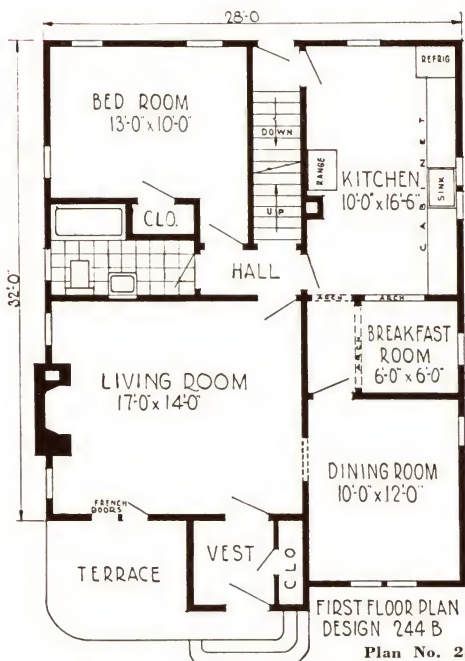

Plan No. 243B—Size 32 by 32 feet (Average)

Shingled bungalows of this type are extremely popular and economical to construct. The interior arrangement embodies every convenient feature, vestibule with closet, large well-lighted living room, dining room with corner recessed arches with open shelves for ornamental pieces, breakfast room, center hall connecting all first-floor rooms, with closet and stairway leading to second floor where two additional large-size bedrooms, playroom and bathroom are provided. The kitchen is thoroughly modern with cabinet along one outside wall with window and two-tray sink in center, chimney for range, refrigerator space and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with space for recreation room, toilet room, laundry and furnace rooms. Hot water or warm air heating plant may be used. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

244B

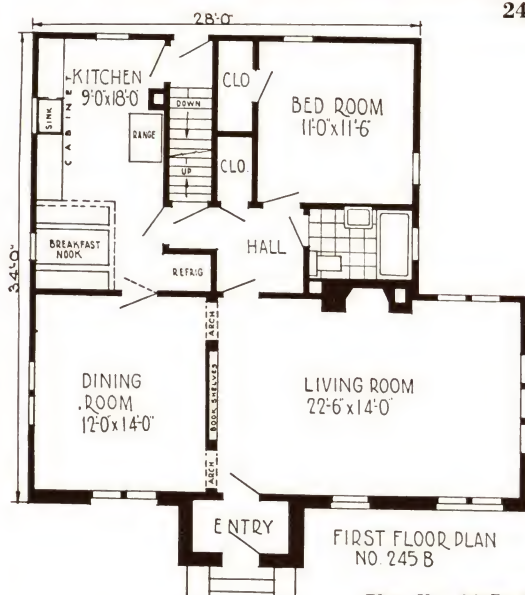

Plan No. 244B—Size 28 by 34 feet (Average)

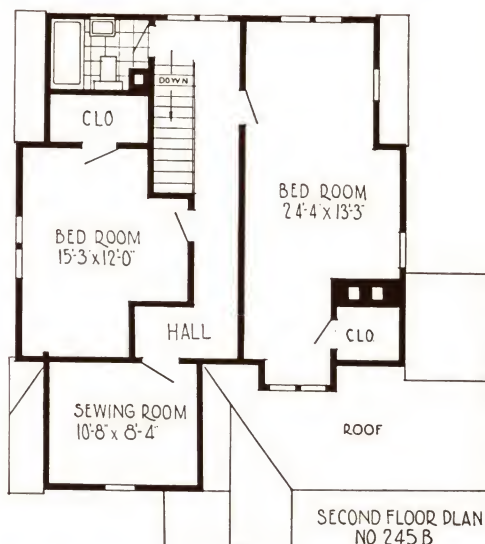

The double gable, projected vestibule, flat-roof dormer and terrace combine to produce the pleasing exterior of this popular type bungalow. A cement water table extends around entire house with shingled walls above. The roomy vestibule, with closet adjoining, leads to well-proportioned living room with fireplace, French doors leading to terrace and arched entry to dining room. The small center hall connects all rooms and has stairway to second floor where two additional bedrooms, sewing room, bathroom and ample closet space are provided. The kitchen is thoroughly modern with large-size cabinet with double windows and two-tray sink in center, chimney for range, breakfast room adjoining, and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with ample space for recreation room, toilet room, laundry, furnace, vegetable and storage rooms. Hot water or warm air heating plant. Ceiling height, first floor, 8 feet 3 inches; second floor 7 feet 6 inches.

245B

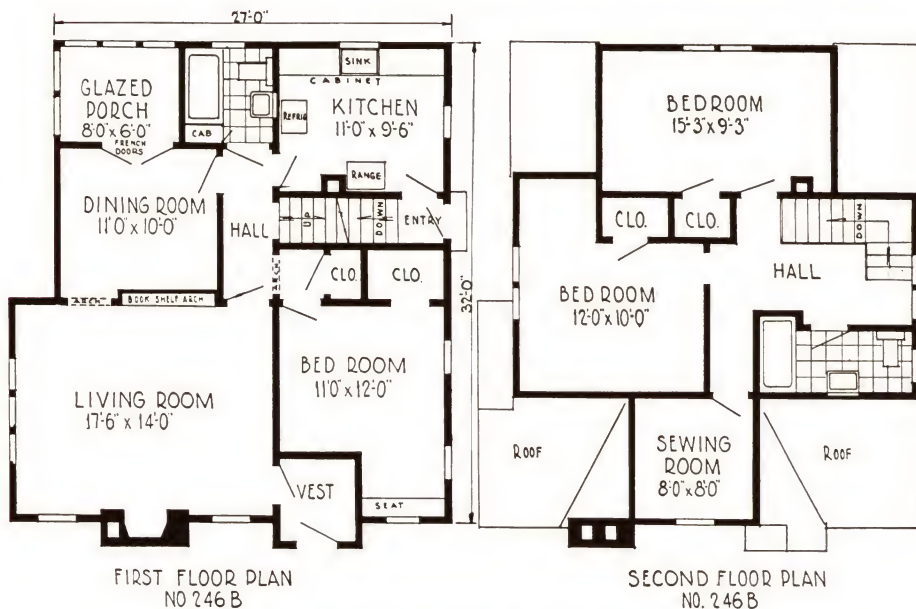

Plan No. 245B—Size 28 by 34 feet

A very unique and distinctive type exterior with batten board gables, rock front and projected vestibule give this bungalow a very pleasing appearance. Entry is made through vestibule into large well-lighted living room with fireplace, double-arch entrance to dining room with center recessed arch with open shelves for ornamental pieces or books, making a very luxurious combination. The small center hall connects all first-floor rooms and has stairway to second floor where two additional good-size bedrooms, sewing room and bathroom are provided. The exterior walls, except front wall, are shingled. The kitchen is thoroughly modern, having large cabinet with window and two-tray sink in center, refrigerator space, breakfast nook, chimney for range, and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with ample space for recreation room, toilet room, laundry, furnace, vegetable and storage rooms. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

246B

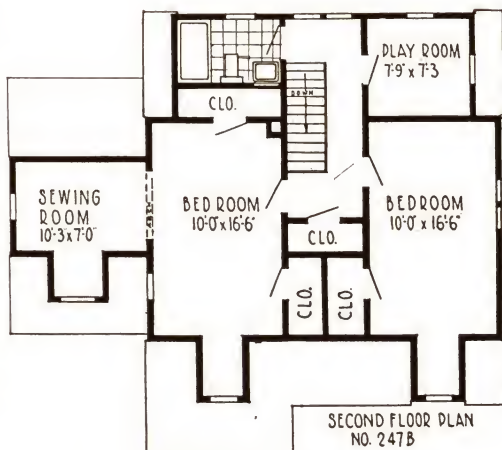

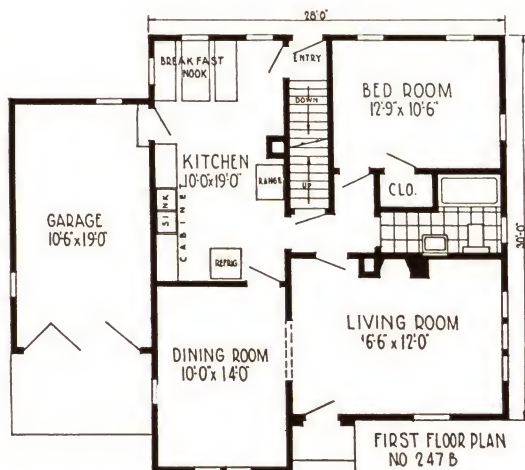

Plan No. 246B—Size 27 by 32 feet

This bungalow, with its front fireplace, double-gable effect and projected vestibule, is a very popular design. Entrance is made through vestibule into well-lighted living room with arched entrance to dining room and recessed arch with open shelves for ornamental pieces or books. The small center hall connects all first-floor rooms and has stairway to second floor where two additional bedrooms, sewing room and bathroom are provided. The kitchen has a cabinet with window and two-tray sink in center, chimney for range and door to side entry leading to basement and outdoors. Seven-foot basement under entire house with space for recreation room, toilet, laundry, furnace, vegetable and storage rooms. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

247B

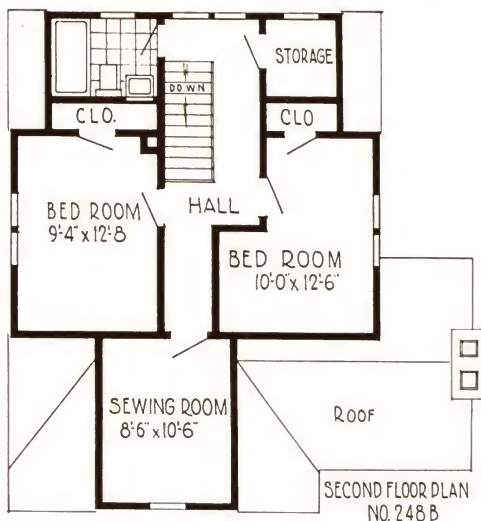

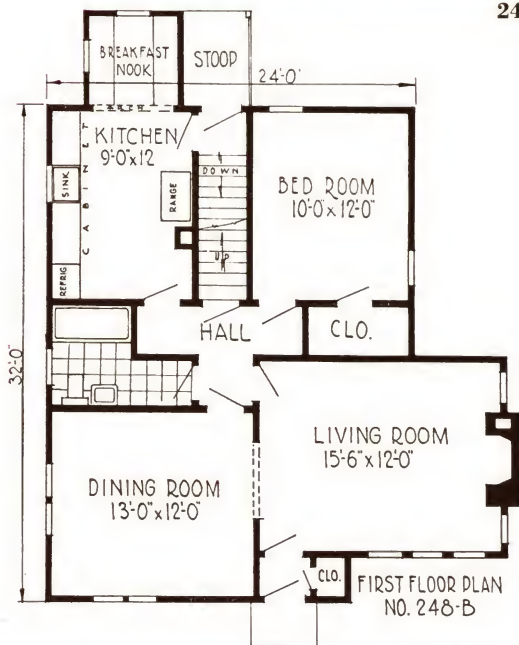

Plan No. 247B—Size 28 by 30 feet

This modernistic type semi-bungalow has a very pleasing exterior, combining beauty and individuality. The interior arrangement is thoroughly practical, modern and convenient. The living room is well lighted, has a fireplace and arched entrance to dining room. The small center hall connects all rooms with bathroom and has stairway leading to second floor where two large bedrooms, sewing room, playroom and bathroom are provided. A cement water table extends around entire house with siding above. The kitchen is very roomy and has cabinet with two-tray sink in center, chimney for range, breakfast nook, door to garage and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with ample space for recreation room, toilet, laundry, furnace, vegetable and storage rooms. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

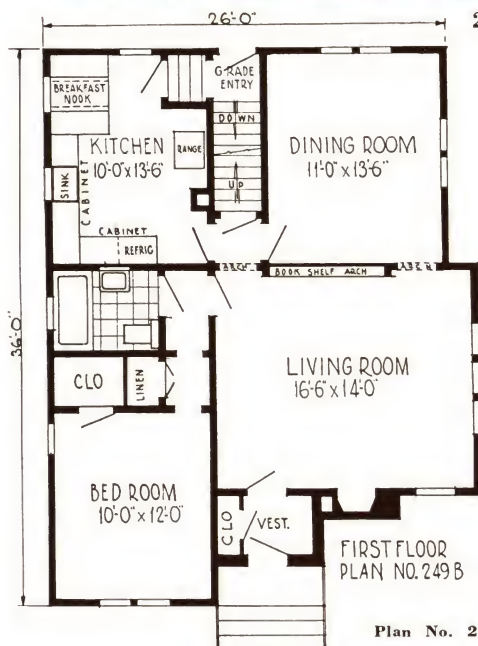

248B

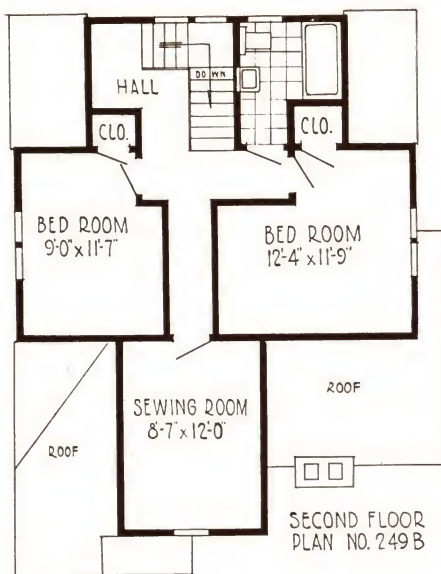

Plan No. 248B—Size 24 by 32 feet

This artistic bungalow, with living room projection, has a very compact interior arrangement. Entrance through vestibule into well-lighted living room with fireplace and arched entrance to dining room. The center hall connects all first-floor rooms and has stairway to second floor where two additional bedrooms, sewing room and bathroom are provided. The kitchen has a cabinet with two-tray sink in center and refrigerator space at end, chimney for range, breakfast nook and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with ample space for recreation room, toilet, laundry, furnace, vegetable and storage rooms. Exterior walls are siding. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

249B

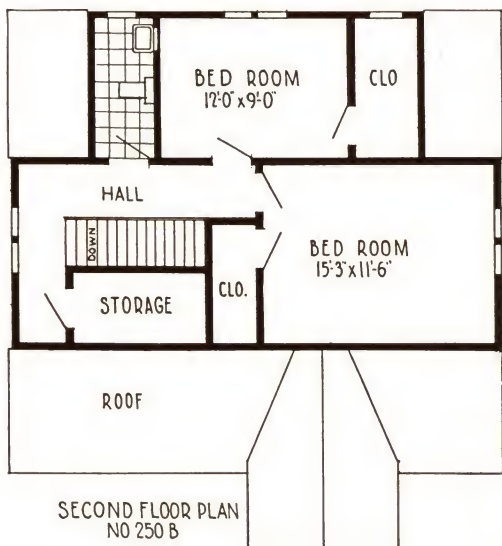

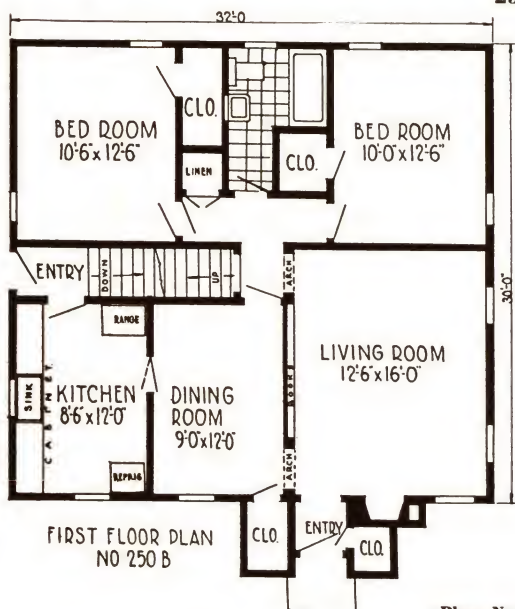

Plan No. 249B—Size 34 feet (Average)

Using mixed common brick for front vestibule wall and fireplace chimney, and the double-gable projections produce a very unique type bungalow with a warm, rich appearance. Entrance is made through vestibule into large well-lighted living room with fireplace and triple arches, the center arch being recessed and having open shelves for ornamental pieces or books. Two additional bedrooms, sewing room and bathroom are provided on second floor. The kitchen has a cabinet with window and two-tray sink in center and refrigerator space at end, breakfast nook, chimney for range and door to grade entry leading to basement and outdoors. Seven-foot basement under entire house with space for recreation room, toilet, laundry, furnace, fruit and storage rooms. The exterior walls are covered with shingles excepting the brick portion shown in illustration. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

250B

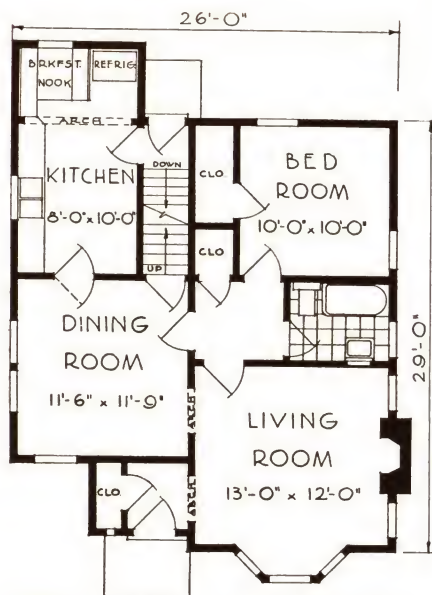

Plan No. 250B—Size 32 by 30 feet

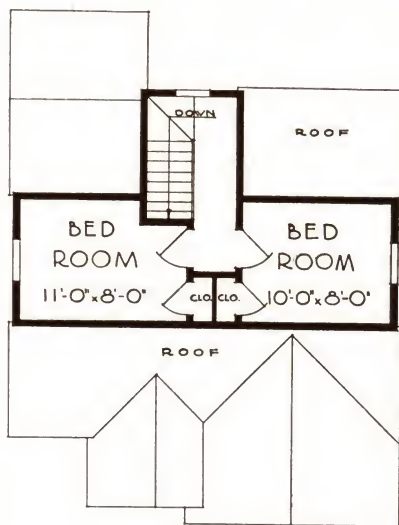

Considering the exterior dimensions of this cozy appearing bungalow the interior arrangement provides a good number of rooms with all modern conveniences and features. The vestibule entry has a closet and leads to attractive living room which has a fireplace and triple arches, the center arch being recessed and provided with open shelves for ornamental pieces or books. The small center hall connects all rooms and has stairway to second floor where two additional bedrooms and toilet room are provided. The kitchen has a cabinet with window and two-tray sink in center, space for refrigerator and range and door to side entry leading to basement and outdoors. Seven-foot basement under entire house with ample space for recreation room, toilet, laundry, furnace, fruit and storage rooms. Exterior walls are covered with shingles. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

Design
No. 252

FIRST FLOOR PLAN NO. 252-B

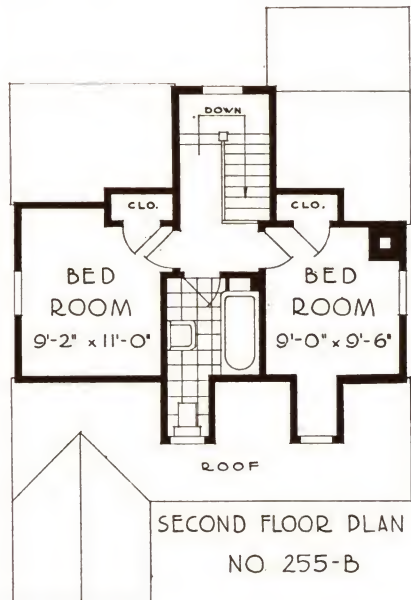

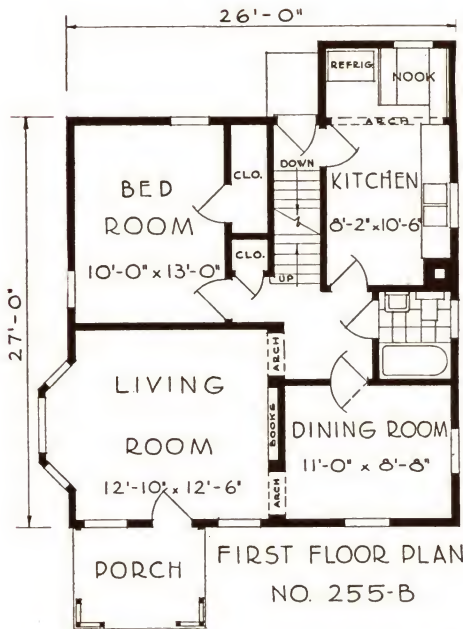

SECOND FLOOR PLAN NO. 252-B

Plan No. 252B—Size 26 by 29 feet

With face brick covering front vestibule wall, artistic bay window projection and double gable effect, this new style bungalow has a very unique and distinctive style and the appearance of being much more expensive than it really is. Entrance is made through front vestibule into large well lighted living room which has a fireplace, bay window and plaster arch entrance to vestibule and dining room. Two additional bedrooms are provided on second floor. The kitchen has a cabinet with two-tray sink in center, breakfast nook, refrigerator space and door to rear entry leading to basement and outdoors. The exterior walls are of lap siding except the front vestibule wall which is of face brick. Seven-foot basement under entire house with space for all conveniences. A hot water or warm air heating system may be used. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches. Larger size plan arrangements for this house design will be found in Section 1 Plan Book.

Design
No. 255

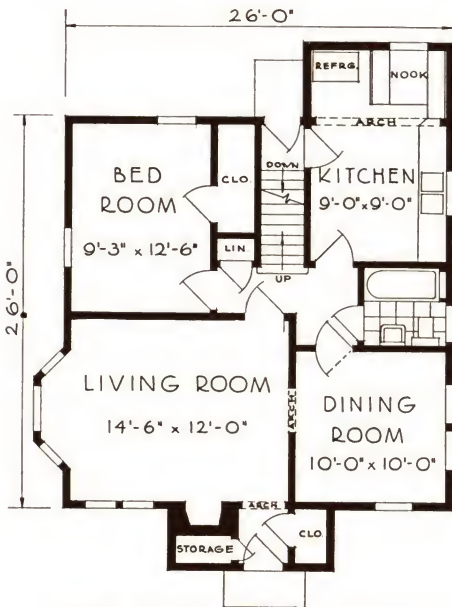

Plan No. 255B—Size 26 by 27 feet

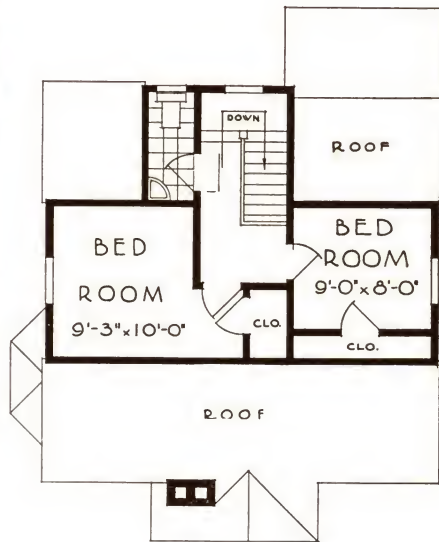

The front porch with trellis work, Colonial dormers, brick water table, and window blinds combine in producing a very pleasing exterior, very similar to the Cape Cod style. The exterior walls are of medium width lap siding. The interior arrangement is very compact. The living room is well lighted and has plaster arch openings into dining room and center hall, between which is a recessed arch with open book shelves. The center hall connects all rooms and has a stairway leading to second floor, where two additional bedrooms and bath are provided. The kitchen has a cabinet with two-tray sink in center, chimney for range, breakfast nook, refrigerator space and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with space for all conveniences. Hot water or a warm air heating system may be used. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches. Larger size plan arrangements for this house design will be found in Section 1 Bungalow Book.

Design
No. 256

FIRST FLOOR PLAN NO. 256-B

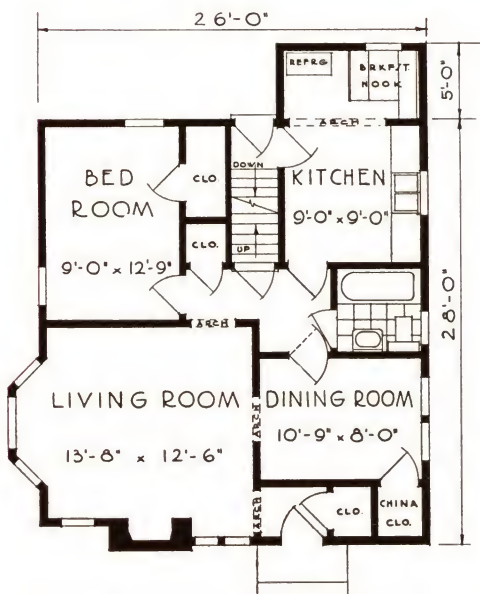

SECOND FLOOR PLAN NO. 256-B

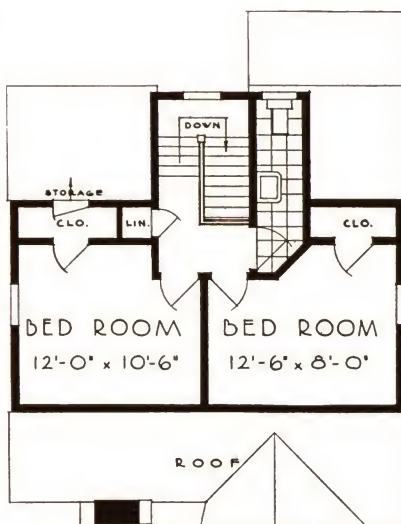

Plan No. 256B—Size 26 by 26 feet

The projected front vestibule with low roof design produces a very unique and extremely pleasing exterior. The vestibule has a closet and arch leading to well lighted living room which has a fireplace and plaster arch opening into dining room. The small center hall connects all rooms and has a stairway to second floor where two additional bedrooms and toilet room are provided. The kitchen has a cabinet with two-tray sink in center, breakfast nook, refrigerator space and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house. Hot water or a warm air heating system may be installed. A brick water table extends across entire front of house with lap siding above. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches. Larger size plan arrangements for this house design will be found in Section 1 Plan Book.

Design
No. 257

FIRST FLOOR PLAN NO. 257-D

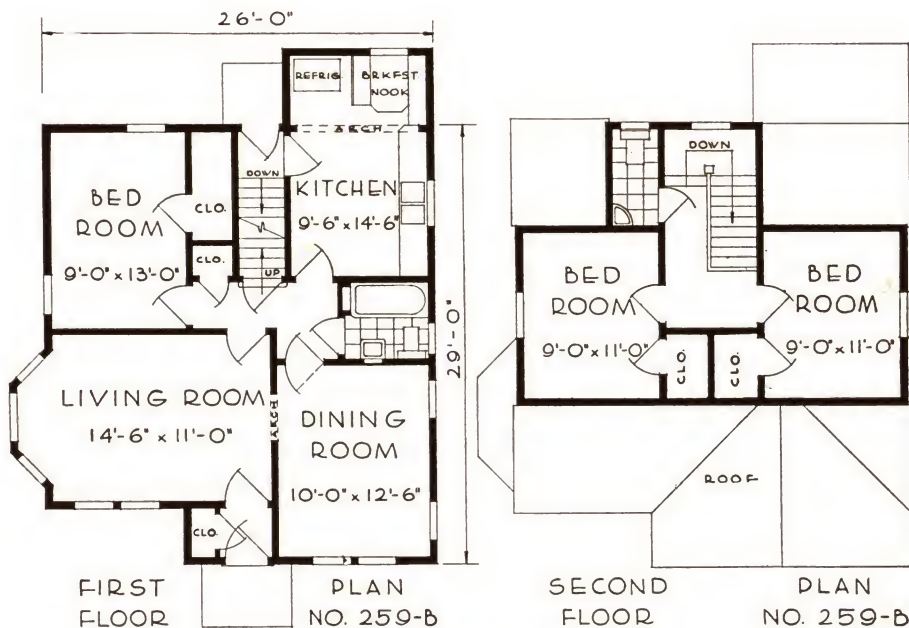

SECOND FLOOR PLAN NO. 257-B

Plan No. 257B—Size 26 by 28 feet

This artistic new style bungalow has a very pleasing exterior. The vestibule has a clothes closet and arched opening into well lighted living room with fireplace and plaster arch openings into dining room, and center hall which connects all rooms and has a stairway leading to second floor where two additional bedrooms and toilet are provided. The kitchen has a cabinet with two-tray sink in center, breakfast nook, refrigerator space and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with space for all conveniences. Hot water or a warm air heating system may be used. Exterior walls are of lap siding. The breakfast nook extension being a separate projection may be eliminated if so desired but the conveniences therein provided are well worth the small additional cost. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches. Larger size plan arrangements for this house design will be found in Section 1 Bungalow Book.

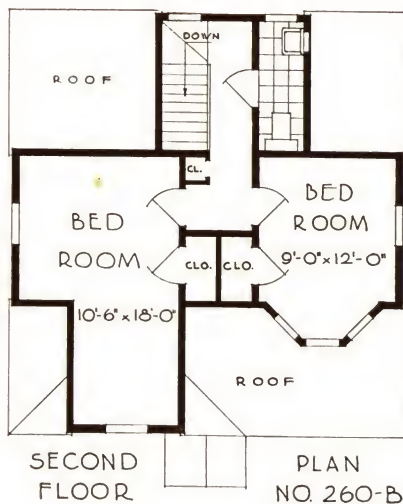

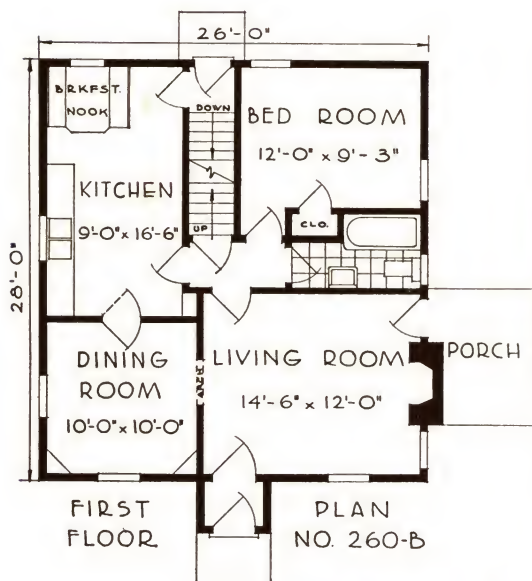

Design

An Extra Room With a Door-Bed

Slumber Luxury by Night

Out of the Way by Day

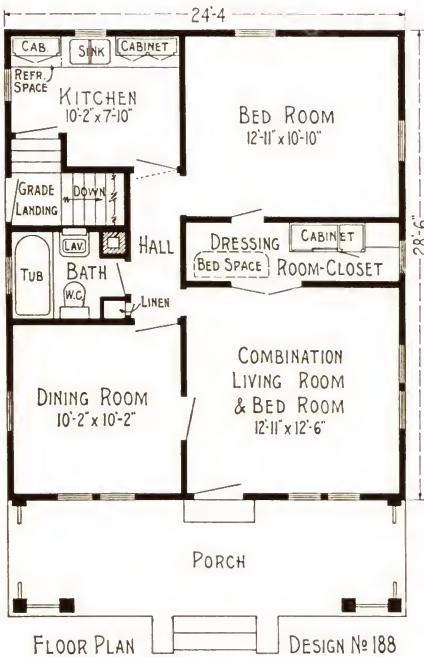

THE plan arrangement for house designs illustrated on following pages provide for a DOOR-BED. The bed is equipped with an arm which pivots on a pin attached to door jamb and is completely concealed in a small closet, size 3 by 5 feet. The bed raises and swings in and out of closet with finger touch control.

The Dressing Room Closets provided in majority of plan arrangements are equipped with cabinet as shown in illustration, including dressing table with drawer and wall space for mirror, wardrobe with sliding doors, chest of drawers and abundant cupboard storage space.

DRESSING ROOM WARDROBE CABINET

Design No. 188

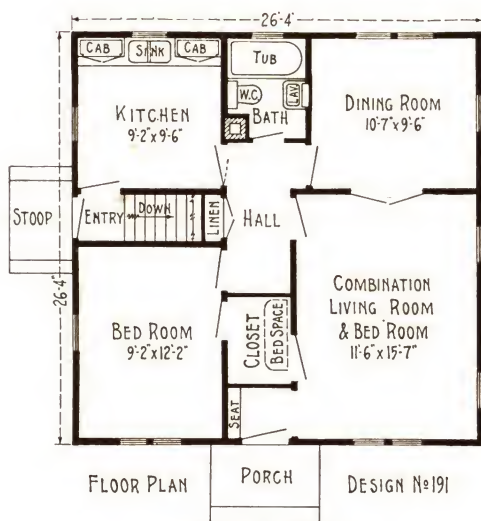

California style predominates in the design of this extremely attractive bungalow. While expensive in appearance, the design and construction are very simple, with front porch covered by main roof. A brick water table extends around entire house with wide siding above. The interior arrangement in each plan is very compact and embodies many convenient features. The dressing room closet adjoining living room is equipped with wardrobe cabinet, chest of drawers, dressing table and door-bed as shown in illustrations appearing on page 25, and provides abundant space for wearing apparel, linens, etc. The door-bed equipment not only provides accommodations of an extra room but eliminates the expense of bedroom furnishings. The small center hall connecting all rooms, the kitchen cabinet with two-tray sink and refrigerator space, the grade entry with stairs leading to kitchen and basement, and chimney for kitchen range all combine in producing a luxurious interior capable of accommodating the average size family. The plans provide for a seven-foot basement under entire house. A pipe or pipeless furnace will furnish ample heat.

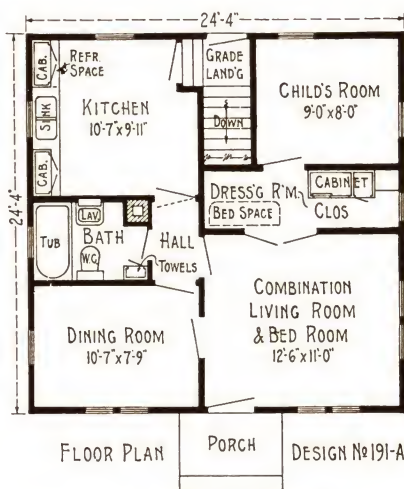

NOTE: Plans provide for door connecting living room with center hall.

Design
No. 191

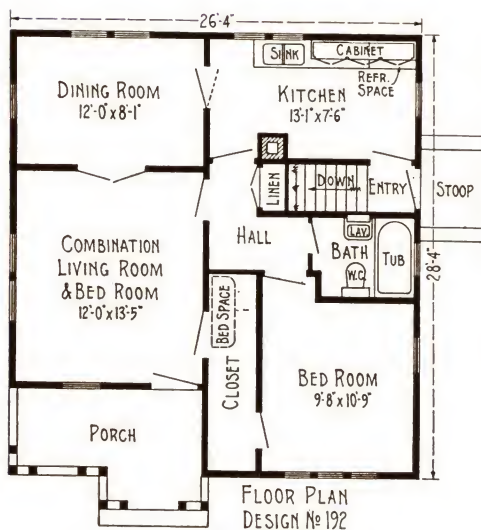

Size $26\frac{1}{8}$ by $26\frac{1}{8}$ feet

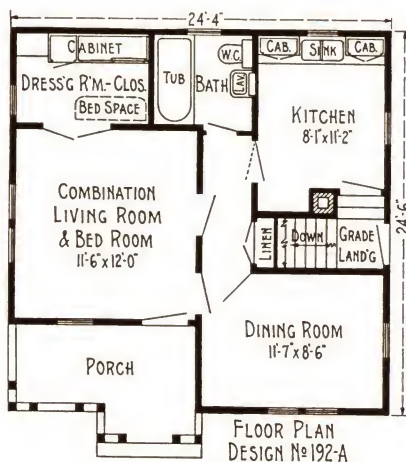

Size $24\frac{1}{8}$ by $24\frac{1}{8}$ feet

This Colonial bungalow with wide siding and green window blinds has an expensive appearance but is very economical to build. The interior plan arrangements are compact and utilize every inch of space. The door-bed, concealed in closet adjoining living room, provides accommodations of an extra room and eliminates expense of bedroom furnishings. The dressing room closet in smaller size plan has a wardrobe cabinet, chest of drawers and dressing table as shown in illustration appearing on page 25. Each plan has a stairway to basement, chimney for kitchen range, kitchen cabinet with two-tray sink and refrigerator space. Either plan arrangement will accommodate a fair-sized family as in addition to the two bedrooms a daybed or folding couch could be placed in dining room. Seven-foot basement under entire house. A pipe or pipeless furnace will furnish ample heat.

Design
No. 192

Size $26\frac{1}{3}$ by $28\frac{1}{8}$ feet

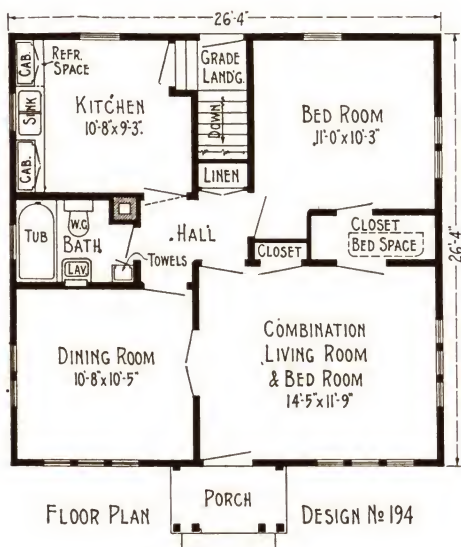

Size $24\frac{1}{8}$ by $24\frac{1}{2}$ feet

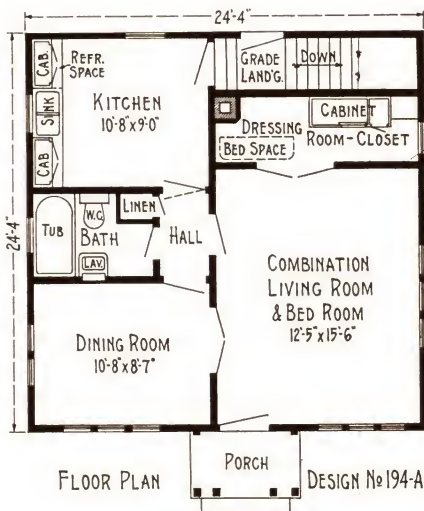

Decidedly unusual in design, this English cottage style bungalow has a very pleasing exterior. An eight-inch water table extends around entire house with wide siding above. The interior plan arrangements are very compact. The small center hall in each plan has a linen closet and connects all rooms. The closet adjoining living room is equipped with a door-bed, thereby providing an extra room accommodation and eliminating the expense of bedroom furnishings. Plan No. 192-A has a cabinet in dressing room including wardrobe, chest of drawers, dressing table and abundant cupboard space. The kitchen has a cabinet with two-tray sink, chimney for range and door to side entry. Seven-foot basement under entire house. A pipe or pipeless furnace will furnish ample heat.

Design
No. 194

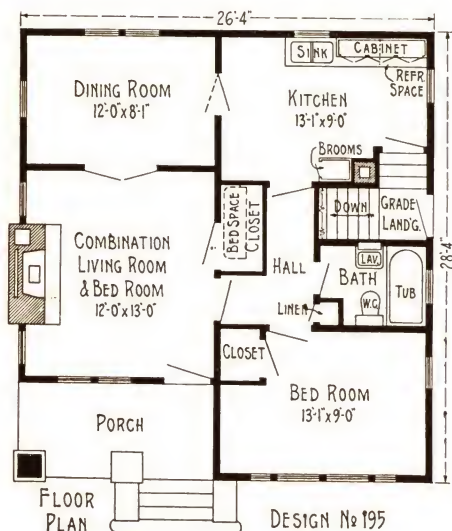

Size 26½ by 26½ feet

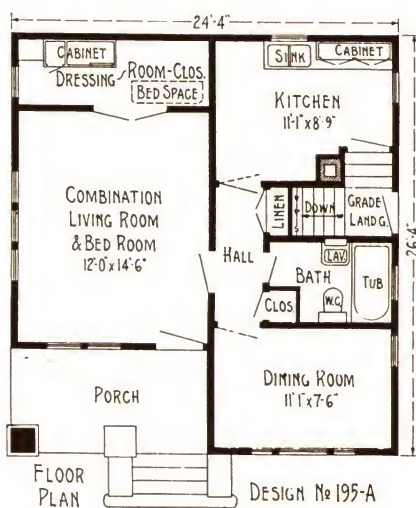

Size 24½ by 24½ feet

The artistic pergola entrance, brick water table with wide siding above, add considerably to the cozy and attractive appearance of this bungalow. In each plan the small center hall has a linen closet and connects with every room. The closet adjoining living room is provided with a door-bed that adds an extra room accommodation without the expense of bedroom furnishings. The closet in plan No. 194-A has a cabinet with wardrobe, chest of drawers, dressing table and cupboard storage space as shown in illustration appearing on page 25. The rear grade entry has a stairway leading to kitchen and to basement. The kitchen has a chimney for range and convenient cabinet with two-tray sink and refrigerator space. Seven-foot basement under entire house. A pipe or pipeless furnace will furnish ample heat.

Design No. 195

Size 26 $\frac{1}{2}$ by 28 $\frac{1}{2}$ feet

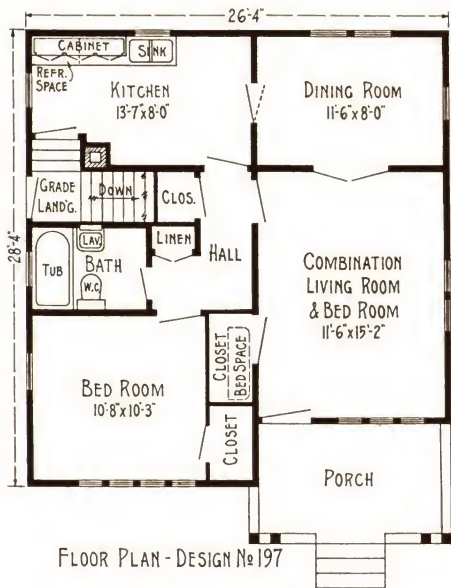

Size 24 $\frac{1}{2}$ by 26 $\frac{1}{2}$ feet

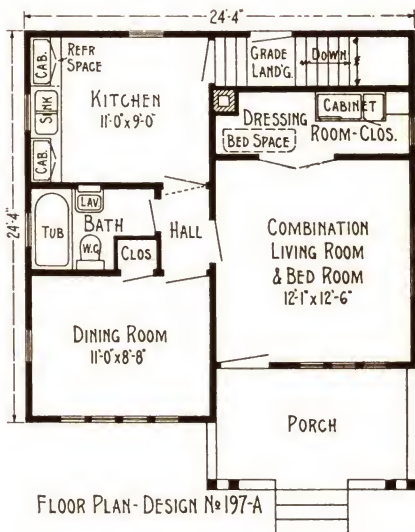

The design of this attractive bungalow borrows from the California type which is so popular in every section. A twelve-inch water table extends around entire house with alternating wide and narrow width siding above. The interior plan arrangements are very practical and compact with small center hall connecting all rooms. The door-bed completely concealed in closet adjoining living room is a very convenient feature, not only in providing accommodations of an extra room but in eliminating the expense of bedroom furnishings. The grade entry at side has a stairway leading to kitchen and to basement. The kitchen has a chimney for range and a cabinet with two-tray sink. The dressing room closet in plan No. 195-A has a cabinet same as shown in illustration appearing on page 25. Seven-foot basement under entire house. A pipe or pipeless furnace will provide ample heat.

Design
No. 197

Size 26 $\frac{1}{3}$ by 28 $\frac{1}{3}$ feet

Size 24 $\frac{1}{3}$ by 24 $\frac{1}{3}$ feet

The projected front porch and shingled walls extending down to a 12-inch cement water table give this bungalow a very pleasing exterior. Every inch of space has been utilized in the perfect interior plan arrangements with a small center hall connecting all rooms, grade entry with stairway leading to kitchen and to basement, chimney for kitchen range, kitchen cabinet with two-tray sink and refrigerator space and door-bed provided in closet adjoining living room which furnishes an extra room accommodation without the expense of bedroom furnishings. The closet in plan No. 197-A has a cabinet with wardrobe, chest of drawers, dressing table and cupboard storage space same as shown in illustration appearing on page 25. Seven-foot basement under entire house. A pipe or pipeless furnace will take care of heating requirements.
